

THE AIR CLEARS JULY 1, 2007!

An effort to repeal the comprehensive smokefree workplace ordinance passed last August by the Anchorage Assembly was successfully defeated on April 3, 2007 with an astounding 72% to 28% victory.

Proposition 1, if passed, would have repealed the smoking ordinance meaning many workers, non-smokers and children would not have been protected from secondhand smoke.

All workers deserve to be protected from heart disease and lung cancer caused by secondhand smoke.

Thank you for your support. Let's celebrate clean indoor air for all workers beginning July 1, 2007!

For more information about secondhand smoke or the new municipal ordinance visit:
